

# Brush Tidy Cable Management Panel 1U >

Molex 1U Brush Tidy Cable Management Panels are manufactured from robust steel and feature flexible cable support rings and hard-wearing nylon bristles. The panel is designed for 19-inch racks and cabinets.

Keeping dust and other particles from network equipment surfaces prevents corrosion and other damage, therefore assisting the efficient functioning of the system. The flexible and strong cable management rings support patch cable bundles. The cable management brush allows the patch cables to pass from the front to the rear of the panel, facilitating air flow. The brush strip feature allows a neat and tidy front of panel patch cord presentation.

## FEATURES AND ADVANTAGES

Robust steel construction, finished in black

1U 19" panel supplied with fixing kit

Flexible, strong cable management rings support patch cord cable bundles

Hard-wearing brush bristles allow neat cable dressing and aid air flow

## SPECIFICATIONS
